ODE BEACH BAGS FOR READING!

"Beach Bags" give parents an easy way to keep their children's reading skills sharp with fun summer activities arranged around five themes:
weather, pets, transportation, food, and neighborhoods. Each downloadable Beach Bag includes two free "little books" you can print out at home, two related activities, a list of classic picture books for further reading, and suggested websites to explore. Beach Bags are offered free to all Ohio families by INFOhio and the Ohio Department of Education. Scan the QR code below to go right to their website:

Kindergarten students are working on a friendship and summer activity theme this week. Students made their own tie dye shirts thanks to some help from parent volunteers.

Message From The Principal

Dear Parents,

As we approach the end of the school year it is important to consider what activities and enrichment students can participate in during the summer. Research shows that the biggest impact on student academic achievement is made when families engage in learning activities that reflect the work children do in school. The summer break is an excellent opportunity for parents to reinforce their children's learning and help prepare them for the year ahead. This month presenters from the Madison Branch of the Richland County Library visited each classroom to explain their summer reading program. Additionally, on the front of this newsletter is information regarding the Ohio Department of Education's "Beach Bag" reading program. Furthermore, your child's teacher is another great resource to inquire as to what your child can do over the summer to enhance their educational skill sets while putting them in position to succeed in the school year ahead.

Thanks for a great school year, and may everyone have a wonderful summer break!

Sincerely,
Jonathan Muro
