School is back in session and the students are smiling! We have had a great first 5 days of school as students are now settled into their new classrooms and routines. Our current enrollment PK-6 is 818 students. We are excited and proud to house so many students at Madison South!

Please let the office know if you have a change in phone # or residence . It is important that we can get a hold of parents in case of an emergency.

Please send a note or call the office when your child is absent from school.

If you need to change your child's transportation going home from school whether by bus or by someone picking him/her up, the office must receive your call **before 2:00pm.** Additionally, no bus passes will be written for students to ride home with another student unless it is for emergency reasons.

Message From The Principal

We are off to a great start and getting ready to complete our first full week of school! If you are a parent who would like to volunteer some time in your child's classroom, I encourage you to contact his/her teacher. We are in the planning stages of a math night and a reading evening here at school, keep a look out for more information to come! Madison South's PTC meets on the second Tuesday of every month at 5:30 here in the library; we hope to see you there! If you have any questions or concerns feel free to contact myself or Mr. Muro. Thanks for sending your children to us and here is to a great September!

Sincerely,
Chris Scholl
Principal

Our title staff is helping with the many assessments that need to be done at the beginning of the year on all students in our building. This practice establishes a baseline from which we can measure student growth over the course of a school year.

SPOTLIGHT ON STAFF MEMBER

Many of our classes at Madison South Elementary use technology as an everyday tool to deliver instruction. Here Ms. Gordon's second grade class is enjoying the opportunity to learn new concepts through the use of a mimeo board. This tool is an interactive way for students and teachers to manipulate what is on the board simply by "touching" what is projected on the white board!
