Paying School Fees & Fines

For your convenience, parents can pay school fees and fines online rather than in person. On our website click on “Students & Parents” at the top of the page. In the drop down menu then click on “School Fees”. From there you will be directed to log into PaySchools Central.

GRADES 5 - 8 TEXT LIST

If you have text service on your phone you can place yourself on the Grades 5 - 8 Middle School Text List to receive building updates and reminders. To get on the text list simply send a text to **81010** and type in the following phrase:
@22e9a

We had great weather for this year’s Madison Invitational! Thanks to all those who attended and supported our students that day! Go Rams!!

Next month we will be collecting chromebook materials back from students. Students will need to turn in their chromebook, case, and charger. Please make sure these items are accounted for at this time. Items not returned will be charged to students’ accounts.

Nurse Notes

Before 7th grade, students are **REQUIRED** for school attendance by the State of Ohio to **have the Tdap and Meningococcal vaccine.** Ohio law allows medical, religious, and philosophical exemptions. **Proof of vaccination or exemption must be turned in before picking up their 7th-grade schedule next year.** Vaccines can be obtained at the Health Dept, your physician's office, or some pharmacies.

If your child has completed the Tdap and Meningococcal vaccines already, please send a copy to school.

Thank you!
Nurse Kayla Robinson

Message From The Principal

The week of May 8th through May 12th is teacher/staff appreciation week. Please consider taking the opportunity to let a teacher or staff member that has influenced your child in a positive way know that you appreciate them during that week.

Have a great rest of the school year,
Go Rams!

Sincerely,
Mr. Muro

Students in 7th grade Science were working on their unit on spheres of the Earth this month. This group of students researched biosphere and presented their research to the rest of the class through presentation software. This activity helps students practice critical thinking and practicing skills for future life careers.

Mrs. Kelly Clements is a representative from the American Heart Association and an instructor at Madison's Adult Education Center. The Health Science Career Technology classes studied first aid, the Heimlich Maneuver and CPR as part of the course curriculum. Mrs. Clements certified 18 engaged students in CPR/First Aid!

Summer School

The Middle School will be hosting a summer school session after the school year is completed. There will be a limited amount of slots available. If you would like for your child to attend summer school please contact Mr. Muro in the office.

Letters will be sent out to families the week of May 8th for those students who have failed classes for the year and will need to attend summer school.

Congratulations to Taylor McKown who was awarded the 8th grade Team Rams March Madness Award! Students are selected for this award based on academic achievement and our R.A.M.S. criteria. (Respectful, Accountable, Motivated, Successful).
