WINTER TIME FUN!

The preschool students have been working on many winter art projects since returning back from holiday break. They have been making many snowflakes, winter displays, snowmen, and winter wonderland pictures. They have been very excited to display their artwork around the building.

The infant and toddlers have been busy exploring using the new gross motor and dramatic play materials in their classrooms. Our children always enjoy when new equipment and materials are introduced into their classrooms. We strive to incorporate new learning materials into our rooms often to provide our children with more learning experiences.

We will be having our annual MECLC Spirit Week beginning the week of January 23rd. The spirit calendar is on our MECLC Facebook page and posted on all parent boards throughout the building. Preschool teachers also sent it through the class Dojo app.

Monday - Favorite Color Day
Tuesday - Crazy Hair and Hat Day
Wednesday - Wear Your Favorite Sports Team Jersey Day
Thursday - Inside-Out Day
Friday - Pajama Day
We hope everyone has fun showing their school spirit!!

February 14th is Valentine's Day! We will have our Valentine's parties on

this day. Please check with your child's classroom teacher for any donation items for the party. We appreciate all of our parent support to help make the parties a big success.

Gorman Nature Center will be visiting our preschool classrooms on February 9th in the morning. Please make sure your child is here for this fun event. They have so much fun seeing the different animals and interacting with them. Spring pictures will be on March 1st and 2nd. These are for all of the programs in the MECLC building. More details will be sent home as we get closer to picture day!

Please follow and like our MECLC FB page for building and program information. Thank you!
